UC Audit Report for FY15-16

- PwC completed the audits for the University of California for the fiscal year ended June 30, 2016 (FY15-16).
  - Financial statement audit
  - Single audit (OMB UG):
    Campuses selected for full-scope testing for single audit were:
    
    | Research & Development | UCB, UCSD, UCD |
    |------------------------|---------------|
    | Student Financial Assistance | UCB, UCSD, UCLA, UCI |

- The University’s audit report for FY15-16 was submitted to the federal government on March 7, 2017 through Federal Audit Clearinghouse (FAC).

- A copy of full report is available at the UCOP and FAC websites.

Single Audit

- 2 CFR 200. 501 Audit Requirements (Old OMB A-133)
  - (a) A non-Federal entity that expends $750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit.

- As part of the Single Audit, the auditor prepares three individual reports.
  - The first report provides auditor’s opinion on whether the University’s financial statements are fairly presented in accordance with US Generally Accepted Accounting Principles (GAAP).
  - The second report describes the scope of auditor’s testing of internal controls and compliance and the results of testing in accordance with Generally Accepted Government Auditing Standards (GAGAS).
  - The third report provides auditor’s opinion on compliance with requirements that could have a direct and material effect on each of the selected major federal programs on internal control over compliance in accordance with UG.
Definitions

- **A deficiency in internal control exists when:**
  - The design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis.

- **Significant deficiency:**
  - A deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control, yet important enough to merit attention by those charged with governance.

- **Material weakness:**
  - A deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

| Audit findings required to be reported in accordance with 2 CFR 200.516(a)? | Yes |
The three following findings were reported in the area of Research and Development.

- **Equipment additions and inventory**
  - Testing disclosed instances where supplies were inappropriately capitalized and included in the equipment management system.

- **Key personnel monitoring**
  - Testing disclosed instances where evidence of having obtained appropriate approvals for key personnel changes was not in place.

- **Cash management timing of reimbursement requests**
  - Testing disclosed instances where LOC cash drawdown reimbursements included expenses posted to the g/l but not paid.
Cash Management Finding

PwC Auditors

- Tested 25 drawdowns for which reimbursement was requested and cash was received during the fiscal year.
- Confirmed that amounts requested per 25 drawdowns were supported by the detailed listings of expenditures.
- Selected 25 individual transactions in the draw request to determine that cash was paid prior to requesting reimbursement.
- Identified that management does not have a process in place to ensure that all expenditures are paid prior to requesting reimbursement.
Uniform Guidance: Payment

2 CFR 200.305 Payment

- (b) For non-federal entities, payments methods must minimize the time elapsing between the transfer of funds from the US Treasury or the pass through entity and the disbursement by the non-federal entity.

  (1) ~ Advance payments to a non-federal entity must be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of nonfederal entity in carrying out the purpose of the approved program or project. The timing and amount of advance payments must be as close as is administratively feasible to the actual disbursements by the nonfederal entity ~

  (3) Reimbursement is the preferred method ~
Grant Policy Statement 6: Payment

- Payments under NIH grants generally are made as advance payments.
- Although the grant may be financed by advance payments, the intent is that recipients draw funds on an as-needed basis—specifically, no more than 3 business days before the funds are needed.
- All Federal funds deposited by PMS in a recipient's bank account as an unrestricted advance payment should be fully disbursed (checks written, signed, and issued to the payees) by the close of business the next workday after receipt of the funds.
- The recipient is responsible for immediately returning all undisbursed funds to PMS by the close of business the next workday after they are received.

Fiscal Close Deadlines

- Fiscal Year Closing is Around the Corner!
- Corporate Financial Services released “The 2016-17 fiscal closing letter and schedule” on April 5, 2017.
- Preliminary ledger closes on July 14, 2017 at 8:00pm
  - Prior to June: Review ledgers and verify that all requisitions, invoices, and payroll transactions for the current fiscal year have been correctly recorded and that all financial adjustments are posted.
  - June till July 14, 2017: Monitor June financial activity. Post expense transfers, income and expense deferrals or accruals, budget adjustments and any other corrections for the fiscal year before the deadline. Refer to the schedule for more details.
- The letter and other fiscal closing instructions are available at:
Fiscal Close Deadlines

- All expenditures that pertain to fiscal year 2016-17 must be recorded in the general ledger by July 7, 2017.
  - Start checking if you have received all invoices from your vendors and subcontractors for goods and services delivered and follow up to minimize accruals of expenses at the year end.
  - Submit invoices if you have any in your office to the Account Payable office.

- Cost Transfer deadlines
  - EFM deadlines are established earlier than GA deadlines to ensure adequate time for EFM to conduct appropriate review for high risk cost transfers.
  - Cost transfers not requiring EFM’s approval may be submitted by GA deadlines.
