This center in the UCLA Psychology department is the legacy of Associate Professor Grace Maxwell Fernald who founded the first clinic school in the U.S. for children and adults with learning disabilities in 1921.

A. Center for Mental Health in Schools
B. FERNALD Child Study Center
C. Center for Culture, Brain, and Development
D. UCLA Behavioral Testing Core
In 1960, Professor of Chemistry Willard F. Libby won the first Nobel Prize for science awarded to a UCLA faculty member for his work in developing:

A. chemotherapy
B. radiocarbon dating
C. protein crystallography
D. molecular orbital theory
In 1960, Professor of Chemistry Willard F. Libby won the first Nobel Prize for science awarded to a UCLA faculty member for his work in developing:

A. chemotherapy
B. radiocarbon dating
C. protein crystallography
D. molecular orbital theory
What location on campus is credited as the “birthplace of the internet”?

A. Engineering I, Room 3420
B. Engineering II and III, Room 3420
C. Engineering IV, Room 3420
D. where the parapsychology lab used to be (c. 1968-1978)
What location on campus is credited as the “birthplace of the internet”?

A. Engineering I, Room 3420
B. Engineering II and III, Room 3420
C. Engineering IV, Room 3420
D. where the parapsychology lab used to be (c. 1968-1978)

Boelter Hall
Fifth floor of Semel Institute
Before costumed student mascots took over the job in the mid-1960s, live bears were used as mascots at UCLA home football games.

True or False?:

Before costumed student mascots took over the job in the mid-1960s, live bears were used as mascots at UCLA home football games.
Before costumed student mascots took over the job in the mid-1960s, live bears were used as mascots at UCLA home football games.
Which University received the world’s first internet transmission from Professor Leonard Kleinrock and his research team at UCLA on October 29, 1969?

A. Stanford University
B. USC
C. Yale University
D. Cal Tech
E. MIT
Which University received the world’s first internet transmission from Professor Leonard Kleinrock and his research team at UCLA on October 29, 1969?

A. Stanford University
B. USC
C. Yale University
D. Cal Tech
E. MIT
In 1964, while Director of UCLA’s Tissue Typing Lab, Paul Terasaki devised a procedure to evaluate the compatibility of organ donors and organ recipients. The method, now the international standard for tissue typing, has been used in approximately 250,000 transplants.
In 1964, while Director of UCLA’s Tissue Typing Lab, Paul Terasaki devised a procedure to evaluate the compatibility of organ donors and organ recipients. The method, now the international standard for tissue typing, has been used in more than 1 MILLION transplants.
UCLA Medical Center Assistant Professor Michael Gottlieb made history when he first diagnosed an unknown affliction later to be called:

A. Parkinson’s Disease
B. Autism
C. ADHD
D. AIDS
E. Depression

Centennial Trivia
UCLA Medical Center Assistant Professor Michael Gottlieb made history when he first diagnosed an unknown affliction later to be called:

A. Parkinson’s Disease
B. Autism
C. ADHD
D. AIDS
E. Depression
